HONGKONG, FRIDAY, JULY 9, 1869.

THE ASSOCIATION MEETING. THREE definite conclusions were come to at the meeting of the Hongkong Association held yesterday; the first, that, so far as can be judged, the London body of the same name has ceased to exist; the second, that the opinion of the majority present was decidedly against any expression of opinion upon the political action of Her Majesty's Government as regards China; the third, that the Association, as a body, was in considerable uncertainty as to what its objects really were. Nobody denied that the first specific grievance which its projectors intended to deal with was the Military Contribuat the Canton Custom House, by the Na- tion; but once beyond the safe bounds of that subject, the members present were by no means either certain of their status or agreed in their opinions. Mr Whyte, indeed, who may be said to have represented the majority, numbering ten, was vehement in his assertion that the association was formed for the sole purpose of dealing with local interests; but the only way of interpreting his assertion is to alter the terms to "such local interests as are not affected by Imperial policy." Even here the action already taken stultifies the statement put forth by Mr Whyte. The Government persists in regarding the Military Contribution

as an "Imperial" question, and have so

stated in the most unmistakeable terms.

The question regarding the status of

the Association, its objects, the means by which they may be achieved, the powers of its Committee, in short its general scope, will, we trust, be fully ventilated at the next meeting at which, we doubt not, we shall see a larger number present than were to be found yesterday. And this will include a consideration of Mr Arnhold's proposition that the Association and the Chamber of Commerce should be amalgamated. Upon this point we shall yet have something to say. The space at our disposal, owing to the unusual length of the report, simply permits of our expressing a most thorough concurrence with the views set forth by Mr Pollard in his interpretation of the phrase "questions affecting the interests of the Colony." As he most truly observed, the duties of the Chamber of Commerce relate more especially to matters affecting the commerce of Hongkong. And a case in which the opinions of the Chamber, restricted to the narrowest views for present interests, might clash those of an Association which aspires to influence the course of future policy, "for the greatest good of the greatest number." is afforded in a statement made by Mr Sharp that some of the Committee had even said that as the present Imperial policy would assuredly result in war, and war would benefit Hongkong, it would be injudicious to attempt to prevent it! There is some truth in the remark, but it is scarcely a view which any collective body of men could put forward as the mainspring of their policy. It must not be forgotten that the discussion of questions of this nature is a duty which devolves upon all members of society to whom circumstances furnish the chance of so doing. He who

LOUAL

In the Supreme Court this morning, His Lordship the Chief Justice sat in bank ruptcy, when Charles Seaburg, bankrupt passed his final examination, and became entitled to his discharge at the expiration of the usual fourteen days. The Cour sat before eleven (the time stated), and the proceedings lasted only a very few minutes.

TO-DAY'S POLICE. There was very little before Mr May today, though a fair quantity of deposition had to be taken down.

The kidnapping case before referred to was disposed of to-day, by the prisoner being ordered to find security for three months in \$50. The evidence was so contradictory that neither conviction nor oun ishment (or committal) appeared to the Magistrate to be justifiable. A case of piracy was further remanded.

HANDICAP SWIMMING BACE, The above race is to take place to-morro afternoon, and about eighteen gentlemen have entered, including five out of the six that last year swam across the harbor. The distance is a querter of a mile and the course is from a lighter moored off the Bath House to a rope to be stretched across from the Bath to the Military Hospital pier. good deal of trouble has been taken by the handicappers to make a fair race for all entered and it is hoped that a very close race will result. The greatest time allowed will be about a minute, gradually declining to five seconds for the better swimmers and two gentlemen whose proficiency thought to be about equal will get no allowance. About 14 to 16 are expected to start.

THE HONGKONG ASSOCIATION.

A meeting of members of the above association was held in the Chamber of Comnierce Rooms yesterday afternoon, for the purpose of receiving the report of the Committee and for the transaction of any business necessary. on Monday next, July 12th :-The Board of Directors have now the pleasure of submitting to you their usual Half-yearly Report upon the affairs of the Company, and its operations during the period from the 1st day of January to the 30th June, 1869.

The accounts are now laid before you. and show the working of the steamers for the past six months. After paying all Commissions, Running Expenses, Salaries, Premia and Insurance, Interest on Loan, bad debts and outgoings of every description to the 30th June, the accounts show a net profit of \$97,544 77, being at the rate of nearly thirty-five per cent. per annum, and including \$5,348.65 brought forward from last statement, there remains the sum of \$102,993,42 available in the hands of the Company. Of this the Directors write off home. There was certainly a table, a stool, Committee's powers and the scope of the Lastyear the great absorbing topic was the Mr Gibson. Should the receipts of the Steamers continue on about the same scale as at present, which seems probable, the Board have much pleasure in anticipating their being able to declare a larger Dividend for the ensuing six months, besides placing apart a considerable sum to the credit of the Depreciation and Reserve Fund.

The Gross Earnings of the Steamers are about \$8,000 more than during the previous six months: every exertion has been made to economize, and the Running Expenses of the Steamers have been reduced about \$13,500 while the cost of repairs have been about \$6,000 less, so that the net Profits of the Company show an increase of \$26,453 over those of the last half-year. JAPANESE IMMIGRANTS IN CALIFORNIA

Heretofore, among all the different classes of Asiatics which have emigrated to California, lured by the gold fields and the high prices of labor, no Japauese have come, except in a few instances as visitors or refugees. The law of the Empire in regard to going abroad has been more stringent, and the people themselves are, from their geographical position, more thoroughly insular, than the Chinese, who have come here in such numbers, to work and trade for years together, that they now constitute nearly one eighth of our population. But there are indications latterly which point to Japanese immigration as something which may reasonably be expected. Since the Pacific Mail steamers began to run between San Francisco and Yokohama many of that peculiar people have visited our city, and a few have remained here to study and to trade. The relations between California and Japan have been friendly and mutually profitable. Our resources, climate, soil and institutions have been examined and reported upon, and the events of the civil war have determined some of the defeated party to try their fortunes here, at least for a short time. Herr Schnell, a Prussian, who has resided in Japan for a number of years, has

lately arrived here, accompanied by three Japanese families, who are said by a contemporary to be the precursors of forty families now on the way to this port, and of a further accession of 80 families, making altogether about 400 persons. Herr Schnell was attached to the service and fortunes of the northern Daimios in their struggle SIR, It is a very amusing thing to see | against the Mikado, and the defeat of his certain law-writers coming forward and friends has induced many of them to look writing in the China Mail about Portuguese to California as a refuge. EXTRACTS FROM REVIEWS. (From the "Straits Times," July 27, 1868.) Some time ago we had occasion to remark upon the progress that Literature as represented by the Press had made and was making in the East, and our attention has again been called to the subject by the receipt of a Hongkong publication which deserves some notice and which we have much pleasure in introducing to the knowledge of our readers. We allude to Notes censes issued to Pilots not being natives and Queries on thing and Japan, published is well printed on good paper, and in size and shape is very like its well-known namesake or prototype at home, and is equally a mine containing very curious and useful information regarding the language, literature, history, manners and customs of the Chinese and in a less degree of the Japanese. It says a good deal for the extent and stability of the footing of Europeans in China, that such a publication as this

should be established and conducted with

apparently successful vigour.

We acknowledge with thanks the receipt of the numbers for the current year of "Notes and Queries," a most deserving Anglo-Chinese monthly, edited by Mr N. B. Dennys, whose "Treaty Ports of China and Japan" are so well known. From the names attached to the "Notes" we can see that the contributors include some of the best Chinese scholars in the East. Its interest is not confined to China, and it will be of valuable assistance to all scholars, who have directed their attention towards the krown in India.
